

Group D – In Line Hockey, Skatepark

What we like about the existing park:

- Open space and beach access
- Variety of people using the park
- Centralized location
- Weather

Challenges:

- Drugs and vandalism
- Lack of security
- Lack of bathrooms – lots of distance between
- Lack of organization
- Soccer balls hitting cars, people
- Lack of parking by tennis courts

Suggestions for Improvement:

- More skateboard facilities
- Police substation
- More youth activities
- More multi-use facilities, i.e. skate park in Portland (California skate parks)
- Increase security and beautify main entrance
- More kids getting involved/positive outlets
- Kids to be incorporated into project and design charrette
- Recycling
- Emphasize parent involvement
- New larger facilities should be incorporated into regional park
- Youth/keiki activities should be kept at central location at old A's
- Large sports complex
- Larger sports (soccer)
- Include projects appropriate to the scale and size of the park
- We need to allow continuation of smaller groups to be a part of the small district park (i.e.. dog walking area)
- Work/share together – Ohana! based on RESPECT
