

Group F – Canoe Halau, Hawaiian Cultural Practitioners

- There are 8 West Hawaii Canoe Clubs; all need Halau space
- In addition to 2 canoe hale currently under construction, possibly need 6 more with 20 canoes / each club - avg. 45'
- Trailers (carrying 3 canoes) require lots of maneuvering space. Approximately 80' of length for truck/trailer/canoe
- Restroom/change room and meeting rooms are needed
- Support use of native plants (landscaping / education)
- Feral cats need to be controlled; they infest the halau area
- Facilities to be used for canoe storage, construction of wa'a / canoe repair. Need source of power and water

What they like about the existing park:

- Proximity to Kailua Village (canoes are launched from Kona Pier)
- Shoreline public access
- Tradition of public use
- Ala Kahakai Trail goes through park. Can link to this and to other parks to the north and south
